

Release Date: April 2010

Trilogy Appoints New Distributor for Iraq

Trilogy Communications, which is a world class supplier of audio communications and infrastructure equipment to the broadcast industry, has appointed Future Art Broadcast Trading Ltd of Baghdad, Iraq as an approved distributor of its products.

Future Art began trading in 2004 and now boasts an impressive track record in the broadcast and artistic production fields offering a one stop solution for all professional audio, video and lighting requirements. Sales by Future Art of Trilogy products to the Karbala Satellite channel have enabled it to be the first Iraqi satellite channel to work with HD. This came about through the use of an Orator Intercom system and several Mentor XL Master Reference Generators with Vector Configuration Software and MasterMind Changeovers.

Additionally, Future Art has installed an Orator Intercom system and several Mentor XL Master Reference Generators in the new Al Hayat MCP satellite channel. This further increases the footprint of Trilogy equipment in this emerging market and now adds to installations such as Al-Fayaha.

Commenting on the fledgling relationship, Fakhir Al Fadhily, Commercial Manager of Future Art Broadcasting said, "We visited Trilogy at their headquarters in the UK and were extremely impressed with the quality of the systems they could offer. We are confident that with Trilogy we can more than meet the needs of Iraqi broadcasters".

Future Art will be responsible for sales across the entire Trilogy product range into Iraq, this includes; Commander & Orator digital matrix intercoms, Mercury IP intercom systems and Mentor XL master sync/test signal generators.

Background Information

Trilogy Communications Ltd

Trilogy has supplied audio communications equipment to customers in more than seventy countries since 1986. The company was originally formed to design and build video and audio infrastructure equipment for the television and radio broadcast market. It continues to serve this market but now also offers its products to a wide array of customers in defence, emergency management, training and simulation, oil and gas, gaming, and other industries.

Trilogy counts some of the world's best known names among its customer base. These include BBC, ITV, CBS, Hearst-Argyle, Fox TV Poland, Radio France, Arqiva, Star TV, Times TV, Qatar TV, Reuters and many others.
