

Trilogy CABSAT 2012 Preview

Stand S2-A31

CABSAT will see [Trilogy](#) showcasing exciting developments to its [Gemini intercom](#). Designed to satisfy the requirements of the Broadcast and professional media markets, Gemini combines the benefits of a scalable, distributed matrix with integrated IP connectivity, providing high quality audio and global access.

Also featured is Watchdog, a highly configurable Signal Detection/Changeover Unit that extends the capability of our class-leading Mentor XL SPG/TSG, making it the ideal choice for studios, mobile production, playout and post.
