

Product Brief

Trilogy BeltPacks

410-50 Series

Description

Available as either single or dual channel units, the Trilogy 410 Series Beltpacks are designed for 4 wire operation providing a convenient portable connection to any Trilogy intercom system. Each is fitted with a momentary 'push to talk' switch plus individual volume control(s) for the incoming audio level. These high performance beltpacks are suited for use with any quality low impedance headset equipped with dynamic microphone depending on the model.
